

UNIVERSAL CARBONLESS
CARBONLESS PAPER COMPATIBLE FOR OFFSET AND DIGITAL PRINTING

Small companies need professional forms too.

UNIVERSAL CARBONLESS

CARBONLESS PAPER COMPATIBLE FOR OFFSET AND DIGITAL PRINTING

Compatible for both offset and dry toner/laser printing.

Developed using industry leading chemistry, Universal carbonless allows you to produce forms on-demand.

Features

25 years ago, we created the first carbonless sheet compatible for dry toner/laser printing. Today, we've continue to develop our industry leading technology and used that same knowledge to produce our new Universal sheet. Compatible for the high pressures associated for offset printing and the high temperatures of dry toner/laser printing, Universal carbonless can face any challenge!

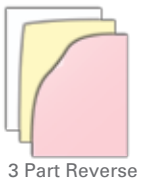

- › Specially formulated chemistry won't contaminate your machine
- › Clear, crisp and durable imaging on a 92.0 bright base sheet
- › Heavier, stiffer base sheet
- › SFI® certified

Advantages For Printers

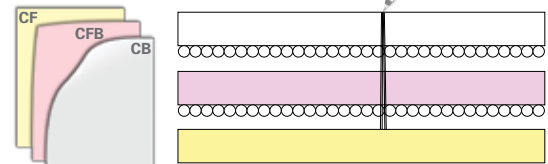

- › Worry free runnability on all printing platforms
- › Stock only one inventory that will work on all of your machines
- › Don't outsource, capitalize on both small and large print jobs
- › Quick and easy variable data, numbering and barcoding

Advantages For Form Users

- › Lasting, legible record retention
- › A choice to minimize environmental impact
- › Enhance brand value by printing a form with full color

It's not just magic!
How carbonless really works ...
